When you refer to ESU, do you mean POU?

The gym may be overrun as a [REDACTED] [REDACTED] for ESU folks from around the country. Tim can you check with the table as it would be ideal for a place for any kids?

Hi Kevin and Jeff,

I wanted to ensure you are aware of this. We will have a SACA team assisting with CAS and keeping the children in a safe location in the gym

at Elgin. Ultimately we are going with not separating children from parents unless absolutely necessary.

Thanks,

Heather

I spoke with CAS and CHEO who have contingency plans in place to responded to child protection issues. We (SACA) will assist CAS who won't be able to attend the scenes if there is an apprehension due to arrests. The only secure, contained child appropriate location i have is the Gym at 474. With the side entrance and washroom facilities it would make an ideal place to contain kids until they can be reunited with family (or for CAS to process) if we're dealing with a large group. They wouldn't have access to any other part of the station and wouldn't have to come thru the lobby given the back stairs.

The CAS offices are compromised as they are now a target of demo supporters and not a safe location to take kids.

We will continue to plan with CAS as long as this doesn't overlap with any plans already in place?

Can you tell me who to contact in ESU as stored bags/gear would need to be removed from the Gym before any operation. We could clear out the gym tomorrow.

Shelley
